Testimonial for Anna Claridge

Anna Claridge from Young Minds Consultancy has worked at our Wairau Valley Special School for the past year in the capacity of a Behaviour Therapist providing professional development and support in understanding behaviours and responding positively. Her wealth of knowledge in this area has been evident and her hands on approach appreciated. Anna's message has been consistent school-wide in supporting teachers, therapists, teacher aides and parents while developing positive relationships with all groups. The impact across the school has been evident in supporting cultural change around communicating to support students before behaviours escalate. The most significant part of the process has been the change in the way staff interact and listen to the student's voice.
